Court Day.

There was a small crowd in attendance at July court yesterday and little trading done. There were only three head of mules on the market. Mr. Walter Clarke bought one from Mr. Perkins for \$175.

Sparkler Refused to Work.

Mr. W. Ed. Tucker met with quite a painful accident on Sunday afternoon while out for a ride in his new auto. When between Seventh and Eighth streets, on Main, the sparkler of his machine became dead. He went to the front and in the endeavor to turn the crank that starts the sparkler it flew from his hand and knocked him with terrific force head-foremost against the fender of the machine. He received a deep gash in the center of the forehead and two beautifully colored eyes. He was stunned for several minutes but soon recovered and was at his place of business yesterday. He is a little disfigured, but still in the ring.

First National Bank Statement.

The First National Bank closed its seventh business year with a statement evidencing splendid business management, and in some features even more unusual than that made at the close of last December. The bank's capital is \$100,000.00. Gross earnings the past six months aggregate \$12,130.03. These added to undivided profits on hand, amounting to \$5,000.00, left for distribution \$17,130.03, and were disposed of as follows: Expenses past six months \$3,201.71; bad debts charged off \$55.00; dividend No. 4, four per cent, semi-annual, \$4,000.00; added to surplus \$5,000.00; undivided profits remaining \$4,873.32. The addition of \$5,000.00 to the bank's surplus places in that fund \$50,000.00 or exactly one half of the capital stock. In addition the bank holds a fund for taxes amounting to \$2,163.91.

A remarkable and unusual feature of this statement and one that will appeal to and interest, especially bankers, is the fact that it shows at the close of business June 30th, no overdrafts, no past due paper, and no re-discounts. The statement shows loans amounting to \$321,135.10; deposits \$222,851.16; cash, due from banks and United States Treasury \$58,753.29; due to banks, nothing. The officers and directors of the bank are greatly pleased at the splendid showing made by the institution entrusted to their care, but they give all the praise for the bank's success to the hearty support of its customers, and of their willingness to assist the officers in every effort to comply with the National Banking Laws and the strict regulations of the Comptroller of the Currency.

Flirting as Education.

"I think the girls of Radcliffe and the boys of Harvard devote too much of their time to study," says Prof. George Herbert Palmer. "They should mingle a little frivolity with their studies; in other words, they should flirt a little."

This advice of Harvard's oldest professor will fall with a strange emphasis on the ears of the regulators of college manners, says the New York World. Are not students already too much inclined to frivolity, shirking "the performance in the main tent" for the "side shows"? Possibly the warning is needed by the Portias of Radcliffe, but the view of college youth as toiling over their books to the sacrifice of their social interests and requiring to be encouraged to relax is one of the novel educational theories of a commencement season which has been prolific of advice on the higher education.

Is not the quality of the leaf moonlight at Cambridge in leafy June what it was? And do they no longer teach Horace there that it now needs the exhortation of a gray haired professor to impress the Roman poet's precepts on undergraduates? Erasmus would have endorsed Dr. Palmer's view, and it is not unlikely that many bearded alumni will confirm it as the wisdom of worldly experience.

But it is evident that a philosophy of life is being taught at the colleges the insidious influence of which on the young mind may well excite the forebodings of episcopal critics. At a time when the President of Union College, a minister, reminds students of the value of "a drop of sporting blood," and a Harvard professor, as the fruit of a life spent in study, advises boys and girls not to neglect the pleasures of youth, stern mentors may well despair of the future. There is some consolation in the thought that students are so good that they must be directed to a flirt as a duty to themselves. But what words of reprobation will the mentors in question find adequate for the characterization of this official encouragement of flirting?

Slighting Noah.

The Society of Naval Architects and Marine Engineers was in pretty small business when it refused to admit Noah's name to the roll of honorary membership, says an Eastern critic.

Noah was six hundred years old when he built the ark. It was made of gopher wood, was pitched inside and out and was three stories high. It was 300 cubits long, 50 cubits wide and 30 cubits high, which according to modern measurements would make it about 512 feet long, 88 feet beam and 53 feet from keel to deck. It was not built for speed, but any of the engineers present at the Detroit convention could have figured out that in displacement it out-classed many an up-to-date ocean carrier. It proved to be a thoroughly serviceable and seaworthy boat, for after weathering a continuous storm of forty days and nights it did not land its passengers and cargo until the end of a cruise lasting five months. Nearly all that time it was out of sight of land.

Mr. Frank E. Kirby, who enjoys the reputation of being a very eminent naval architect, sneered at Noah as "a game keeper, not a designer primarily." But when did Mr. Kirby or any member of the Society of Naval Architects and Marine Engineers, active or honorary, ever plan or construct a vessel, that could carry a pair of animals of every kind on earth, be-

sides a crew as big as Noah's family and supplies enough for a five months voyage? If one of them constructed an Atlantic liner that brought over a herd of animals from Hagenbeck's or even a pair of Mr. Roosevelt's pet Gazelles, he would feel very well satisfied with himself. But Noah's services are too well known to the public at large for the votes of a lot of scientific boat builders to make any difference with his reputation as a naval architect.

Still at Sea.

The Senate voted down Senator Stone's resolution, promising Philippine independence at the end of fifteen years. The resolution was defeated by practically a party vote, showing that the Republicans are still at sea as to their policy in the Philippines. No Republican Senator would dare to propose a resolution announcing a definite policy--the Republican party has no policy. The country is left to rest under the charge of having abandoned the principles of self government and yet no prominent Republican would risk a vote on a platform declaring for a permanent colonial policy.

The Democratic party has a plan and it has consistently urged that plan from the beginning, namely, that we make an immediate promise of ultimate independence. There may be room for discussion as to whether the promise should fix a definite time, as the Stone resolution did, or have the time indefinite, but the time is not so important as the declaration of a policy. Senator Stone is to be commended for presenting the issue and the party is to be congratulated upon the unanimity shown in the support of the resolution.

Too Bad, of Course.

Yes, it is too bad to have the Democrats divided over the tariff rate on lumber and the rates on iron ore, but the Republican newspapers must not become so absorbed in the discussion of this division between Republicans over the same schedules. The Republican papers cannot consistently criticize a few Democrats for voting a free lumber and free iron ore without criticizing the Republicans who did the same thing, but they may not worry about inconsistency.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examining the formula on their bottle wrappers--the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator--the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders--better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

Burley Growers Adopt Lebus' Plan--Text of New Pledge.

Winchester, Ky., July 2.—With the
unanimous adoption of a form of con-
tract under which growers of Burley
Tobacco are expected to pledge and
pool their crop this year, the District
Board of the Burley Tobacco Society
completed at noon Wednesday the de-
liberations begun Tuesday morning.

Articles also were signed in Winches-
ter Wednesday creating a corporation
to be known as the Burley Tobacco
Company and to be controlled by the
Kentucky Burley Society, which takes
in the burley tobacco growing section
of this state, Ohio and Indiana. The
plan is to use 10 per cent of the pro-
ceeds from this year's pooled crop to
capitalize the company, which is expected
to be in active operation in one year.

President Lebus of the Burley Society,
made the statement that on a pool of
150,000 hogsheads the corporation would
earn \$1,800,000.
The members took their departure
from Winchester Wednesday for their
respective counties to begin the cam-
paign for the pooling of the 1909 crop
under conditions which, if successful,
will result in the placing of the tobacco
market completely, firmly and perma-
nently in the hands of the growers;
will make it impossible for the Ameri-
can Tobacco Company or any other
manufacturer of the burley tobacco
grown in Central Kentucky to buy to-
bacco in any manner other than in open
competition in the warehouses control-
led by the growers, and will wipe out
all warehouses, rehandling, redrying
and prizing plants now owned and con-
trolled by individuals and corporations
here and elsewhere.

follows:

PLEDGE NO. _____

CAMPAIGN TO OPEN AT ONCE.

This contract is printed on bond pa-
per with stubs with places for the
names and addresses of the growers and
tenants, the number of acres, under
cultivation and other essential data,
and is bound in books of 50. There are
also two other books, one with a white
cover and the other with a yellow
cover. Each county in the burley tobacco
belt has been divided into districts.
A solicitor will be appointed for each
district, and he will be given a book
of pledges and a white and yellow
book. Each solicitor will visit every
grower in his district and ask him to
pledge his tobacco. If he signs the
contract all necessary information
about his crop and his financial con-
dition will be put into the book with the
white cover. If he refuses to pledge,
his reasons for so doing and other data
as to the number of acres he is grow-
ing and its location will be put into
the yellow book.

The pooling campaign is to begin at
once, and will be carried on with all
possible speed and with the aid of the
various unions of the American Society
of Equity. Through the distribution of
especially prepared literature the
growers and tenants will be enlighten-

ed as to the magnitude of possibilities
under this pledge. When the cam-
paign for pooling is completed, about
the middle of September, the stub
books and the white and yellow books
will be turned into the headquarters
of the Burley Tobacco Society at Win-
chester, and the clerical force will
compile the data, giving the total
number of acres under cultivation, the
number pledged and the number not
pledged. The board will then meet,
and if in its opinion a sufficient pro-
portion of the crop has been pledged
a pool will be declared, and from the
proceeds of the tobacco so pooled 10
per cent will be retained by the Bur-
ley Tobacco Society, for the capitula-
tion of the Burley Tobacco Company
each grower in pool receiving stock in
this company in lieu of the 10 per cent
of his crop so withheld.

CHANGES IN THE CONTRACT.

It will be observed that it is not
specified in the contract that any per-
centage of the total crop of this year
must be pledged before a pool can be
declared. This matter, unlike the
pledge of 1907, is left to the discretion
of the board. It will be further observ-
ed that the price per pound at which
the tobacco must be sold is not fixed in
the contract, as it was in the contract
of 1907, when it was specified that it
should not be lower than 15 cents. One
of the purposes in leaving this unstated
is to enable the Burley Tobacco Com-
pany, if organized, as it will be if a
pool is announced, to sell the tobacco at
auction in open competition and under
whatever terms or restrictions its offi-
cers may choose to impose. It was ar-
gued also in the discussion of Wednes-
day and Tuesday that had not this 15
cent per pound clause been in the pre-
vious contracts the 1906 pooled tobacco
could have been sold more than a year
before it was finally disposed of for an
average of about 12 cents per pound,
which would not have necessitated the
paying of storage, insurance and other
fees for an extended period.

In the course of the discussion Wed-
nesday it was shown by President Le-
bus that if the crop this year is pooled
and the Burley Tobacco Company is
created, a uniform rate for rehandling,
redrying and prizing at actual cost to
the growers is possible; that it will do
away with the profit now going into
the pockets of the warehousemen, that
the company will be able to carry its
own insurance and that the growers
will not have to pay as much for the
sale of their tobacco as they are now
paying on the floors of the warehouses.
He said that the profit accruing to
the company—otherwise the growers
—on these features alone would amount
to \$1,800,000 in the handling and sale
of 150,000 hogsheads of tobacco.

LESS OPPOSITION MANIFESTED.

No such opposition was manifested
in the speech of Mr. Renick, of Clark
county, Tuesday, was shown in the ad-
dresses of the various representatives
as the call for reports by counties pro-
ceeded Wednesday morning. The ma-
jority of the representatives expressed
themselves as satisfied that under the
contracts as read they would have lit-
tle trouble in pledging the bulk of the
crop in their various counties. The
representative from Carroll county said
that it would be easy for him; that he
had already demonstrated to the grow-
ers of his county the practicability of
this plan; that he had in 1906 formed a
company of growers, who had pooled
their tobacco for the purpose of build-
ing a warehouse for storage and re-
handling; that no member was permit-
ted to take over \$1,500 worth of stock,
and no person who had not pooled his
tobacco was admitted to membership;
that the first year they had a profit of
100 per cent on their investment, and
that the next year they had about the
same, so they decided that since they
had paid for their property in the first
year they would take only 10 per cent
of the profit and give the remainder to
the Burley Tobacco Society to be used in
its fight against the American Tobacco
Company.

To sum up the discussion of this sub-
ject throughout the two days it is
evident that the element in the organi-
zation who believed that the salary paid
President Lebus and the fee contingent
upon the accomplishment of a pool
this year, and the creation of the Bur-
ley Tobacco Company, is exorbitant is
decidedly in the minority. It is like-
wise apparent that the majority of the
members of the District Board are
not of the opinion that the proposal to
pool the crop this year will fail through
any belief that too much is being paid
to the officials and employees of the
Burley Tobacco Society.

MAJORITY IS WITH LEBUS.

The Lebus following in the organi-
zation is decidedly in the majority, and
at the close of the meeting Wednesday
it was apparent that the greatest num-
ber have implicit confidence in his
leadership, and they expressed the
opinion that on October 1 a pool would
be declared. Before the contract was
adopted Attorneys D. L. Pendleton, of
Winchester and Thomas E. E. Edlen,
of Frankfort, explained the legal
points of the document, and said that
it was entirely safe. The contract,
they explained, if a pool is declared on
October 1, stands until the tobacco so
pledged is sold. If no pool is declared,
the signer of each contract will go to
the bank in his county in which the pa-
per has been deposited, get it and tear
it up.

The District Board decided to pur-
chase the 3,000 hogsheads of tobacco
contracted for and not taken by certain
independents, and to pay the growers
at once. When this has been done all
counties will have received 90 per cent
from the tobacco proceeds. After the
payment of all legitimate expenses of
the pool from the 10 per cent that was
held in reserve, the remainder of this
will be distributed pro rata, and the
pools of 1906 and 1907 will be closed as
settled. This will be done in the next
few weeks.

SATURDAYS' GAME.

In a game played at Frankfort Saturday between the Bourbonites and Lawmakers, the latter won by a score of 4 to 3. The game was a see-saw from start to finish and the features were the miserable infield work of both teams.

Winchell was on the mound for the Paris team and gave the Lawmakers six hits, while the Paris boy secured seven off of Cornell, the Frankfort pitcher, so the official score shows. However, Scott, the heavy hitting short-stop of the Paris team, claims to have gotten three in this game, but was only given credit for one. "Pop" Barnett had his eye along and secured three hits. The following is the official

score by innings and summary of the game:
Paris.....0 1 0 1 0 0 1 0 0-3
Frankfort.....0 2 0 1 0 0 0 1 x-4
Earned runs—Frankfort, 1. Sacrifice hits—Seebach, Yantz, 1. Stolen base—Hoffman. Two-base hits—Barnett, Yantz, 2; Hoffman, Angemeier. Left on bases—Paris 11; Frankfort, 6. Struck out—by Winchell, 6; Cornell, 8. Base on balls—off Cornell, 4. Wild pitch—Winchell, 2. Passed ball—Angemeier, 1. Time—1:40. Umpire—Dunbar.

SUNDAY'S GAME.

There were near a thousand people at the game Sunday afternoon between Paris and Shelbyville at White Park. The game resulted in a score of 8 to 6 in favor of Paris. It was an uninteresting listless game.

Stanley Barton, of Cincinnati, the new pitcher of the Paris team, put in the box and pitched gilt edge ball for six innings, but then weakened. It was the first game Barton had pitched for two weeks and he was short of work. He is a good ball player and there is no doubt but what he will make good.

Valandingham, The crack Shelbyville pitcher, was in the box for the visitors and did well until the fifth inning when the sluggers found him and batted him all over the field. It looked like every member of the local team had it in for him and was trying to lose the ball. Seven runs were batted in in this inning. Hannigan was the star in this batting rally, as he caught one on the nose when there were three men on bases, scoring all three with his two-bagger and scoring himself on Felix's three-bagger.

The Shelbyville boys play snappy ball throughout and they are a game set of players and don't know anything about "quitting." They play the same kind of ball from start to finish, whether ahead or behind, and in this respect the Paris team is faulty. Get together and take on an overdose of ginger, you Bourbonites, if you want to raise a notch or two in the estimation of your many admirers here. The following is the score by innings and the summary.

Shelbyville.....1 0 0 0 0 0 2 0-6
Paris.....1 0 0 0 7 0 0 0 x-8
Batteries—Paris, Barton, Dugger and Felix; Shelbyville, Valandingham and Kiroher. Hits—Paris, 12; Shelbyville, 9. Errors—Paris, 5; Shelbyville, 2. Two-base hits—Hannigan, 3; Scott, Stolen bases—Daugherty—Hannigan, 2; Ochs, Scott, Seebach. Bases on balls—off Valandingham, 2; Barton, 8; Dugger, 2. Left on bases—Paris, 7; Shelbyville, 12. Nine hits off Barton in seven and two-third innings. Umpires Dunbar and Hanley.

shape by a score of 2 to 0. The cause mostly for this humiliation was the failure of the Bourbonites to connect with the twisters of Robbins, the Lexington pitcher. He seems to have the hoodoo on the Paris sluggers for this is his fifth consecutive victory over them.

To make a long story short and at the same time give the facts, is simply this—the Colts just outplayed the Bourbonites. Poole, for the locals, pitched steady game, and most of the hits credited to the visitors were the result of slow fielding on the part of his teammates. The official score by innings and summary is as follows.

Lexington.....0 0 0 0 0 1 1 0-2
Paris.....0 0 0 0 0 0 0 0-0
Batteries—For Lexington, Robbins and Downing; for Paris, Poole and Felix. Hits—Paris, 4; Lexington, 10. Errors—Paris, 2; Lexington, 1. Earned runs, Lexington 1. Two base hits—Kimbro. Sacrifice hits—Doyle, Burke. Stolen bases—Downing, Johnson, Hall, Robbins. Struck out by Poole 2; Robbins 5. Base on balls—by Robbins 2; by Poole 1. Hit by pitched ball—Downing. Left on bases—Lexington 9; Paris, 6. Umpires, Dunbar and Rasche. Time 1:40.

MONDAY AFTERNOON.

The game yesterday afternoon at Lexington between the Colts and Bourbonites was a repetition of the morning game, the score being 3 to 0 in favor of the colts. Mr. Robbins was the gentleman that repeated the dose. He was again in the box for Lexington and the Paris bunch were like infants standing before him. To pitch eighteen innings without giving a run to the opposing team is an enviable record. There were only nine hits made off of him in the two games. Dugger pitched a fine game only allowing six hits. They were again simply outplayed. The features of the game for Paris was the sensational fielding of Williams, Ochs and Hannigan in the outfield. It was a hard fought battle. The following is the score by innings:

Paris.....0 0 0 0 0 0 0 0-0
Lexington.....2 1 0 0 0 0 0 x-3
Hits—Lexington, 6; Paris, 5. Errors—Paris, 0; Lexington, 1. Two-base hits—Ochs, Robbins. Stolen bases—Lexington, 6. Struck out—by Robbins, 5; by Dugger, 4. Bases on balls—off Robbins, 2; off Dugger, 2. Left on bases—Paris, 7; Lexington, 4. Umpires—Dunbar and Rasche. Time 1:40.

Two Boys Shot by Negro.

Ben Ferrell, aged 9 years and George Erion, aged 13 years, were playing Saturday afternoon behind a barn near town, on the Bethlehem pike, when Henry Spencer, a negro boy, 11 years of age, whose parents reside in a cabin near the old Langston mill, about seventy-five yards from where the boys were at play, fired two shots at the white boys, both taking effect. The Erion boy received a flesh wound in the right arm, while the Ferrell boy was dangerously wounded and hurriedly taken to a Lexington hospital for treatment. His condition is considered serious.

The negro boy was arrested Sunday by Deputy Sheriff Talbott and lodged in jail. The weapon used by the boy was a 32 calibre Stevens rifle. He claims that he was shooting at a pigeon and did not see the boys at all. The date of his trial has not been set.

Deposit Bank Statement.

We desire to call attention to the statement of the Deposit Bank, which appears on another page in this issue, which shows the unusual healthy condition of this old banking house. The Deposit Bank of Paris started into business in 1851 with a small capital stock and small deposits, at the close of business June 30, 1909, shows paid up capital stock of \$100,000, with surplus of \$25,000 and individual deposits of \$238,144.64. By conservative management during all these years the Deposit Bank now ranks among the first as one of the most conservative and substantial banking institutions in Central Kentucky. The officers are painstaking and efficient and well-known for their business integrity throughout this section. They are as follows: President J. M. Hall; Cashier, C. K. Thomas; Bookkeepers, George Doyle, Fayette Ardery; Directors, J. M. Hall, E. M. Dickson, J. P. Sullivan, R. J. Neely, S. S. Ardery. The statement referred to, in fact, needs no comment from us, for it shows that the old Deposit Bank is as strong and firm as the rock of Gibraltar.

Shooting Affray at Millersburg.

Henry Parker, colored better known as Viss Barton, was shot and probably fatally wounded at Millersburg, Saturday night, by Exie Boyd, colored. There had been a picnic during the day in Mr. W. M. Layson's woods, about one mile from Millersburg, where there was a game of base ball. Parker and Boyd had some trouble over the game, but it was not thought to be of a serious nature. After returning to Millersburg, they met about 8 o'clock in front of the colored restaurant of Jim Madden. Boyd called Parker aside from the crowd and they engaged in low conversation, which was followed in a few minutes by a pistol shot. Parker staggered to the veranda of John Jones' house and fell. He was carried to the office of Dr. W. V. Huffman, and it was found the ball entered on the left side just below the short ribs, ranging downward. About 11 o'clock Saturday night the wounded negro was taken to the Good Samaritan Hospital, Lexington, by Dr. Huffman. In W. G. McIntyre's automobile, where he was operated on. The ball had perforated his bowels. He is resting comfortably, but is in a precarious condition. The run was made from Millersburg to Lexington in one hour and ten minutes. Boyd made his escape and had not been captured up to last report.

RUDOLPH DAVIS.

Circuit Court Adjourned.

Judge Robert Stout adjourned the Bourbon Circuit Court Saturday until the November term. There was less business transacted at the June term this year than ever before known. It was a busy season with the farmers and the court was put to considerable worry in regard to farmers not being able to do jury service. It looked as if little interest was manifested in court matters by anybody connected with the court.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Rat and Goose Fight.

A very large rat and a goose fought to a finish Monday in the chicken yard of Mr. John R. McDermott, the popular manager of the Postal Telegraph Company, the goose winning out in the first round by shaking Mr. rat to death. Mr. and Mrs. McDermott were engaged in feeding a lot of chickens and geese, when the rat came from underneath the house and running close to a goose seized a small chicken by the back of the neck and tried to drag it under the house. Hearing the cries of the little chick the goose reached for the hungry varmint and seizing it likewise by the back of the neck threshed it against the ground till it fell limp and dead. Mr. McDermott witnessed the unequal conflict, which was fast and furious and pronounced the goose as being superior to that of a cat in making away with a member of the varmint family.

—You may not know it but it is

Too Much Criticism.

There is too much criticism of Ken-
tucky by those who should be spending
the same amount of time in righting
the very things they feel called upon
to condemn, says the Paducah News.
It is a dirty bird, whether a civic bet-
terment advocate, a would-be public
benefactor or a buzzard that befools
its own nest. What each and all should
do is use the broom so to speak, in-
stead of the pen or tongue.

Looking One's Best.

It's a woman's delight to look her
best but pimples, skin eruptions, sores
and boils rob life of joy. Listen!
Bucklen's Arnica Salve cures them;
makes the skin soft and velvety. It
glorifies the face, cures pimples, sore
eyes, cold sores, cracked lips, chapped
hands. Try it. Infallible for piles.

TWO WINOERS.

Dain Three Side Hitch Rake.

This Rake is so constructed that the point of the teeth conform to the
uneven meadow surface without wrenching or straining any part. This
flexible feature insures clean raking, and being a decided advantage
possessed by no other rake, should not be overlooked by anyone in the
market. The material entering the construction of this Rake is the best
money can buy; the workmanship first-class; both are covered by our broad
guarantee. For a durable, handy Rake of large capacity at a moderate
price, the Dain has no equal.

Genuine Underdraft
IS TO BE HAD ON THE
ADMIRAL
MOWER
ONLY

THE WONDERFULLY EASY FOOT-LIFT
THIS CUT ALSO ILLUSTRATES THE DIRECT UNDERDRAFT FEATURE

Every farmer knows that the greater the "Underdraft" of a mower;
the better and easier that mower will do its work. Every other maker
of mowers uses some device that will enable him to secure as much
"Underdraft" as possible. The best of these devices, however, are but
makeshifts by which at least two-thirds of the draft is applied through
the pole. Walter A. Wood Mowers alone possess genuine "Underdraft."
Every ounce of draft is applied through the draft rod (shown in above
cut) right where it is needed. A visit to this store will make this valuable
feature clear. We honestly believe the Admiral is the best mower on the
market to-day and are eager to show it to you and tell you all about it.

A Bright Music Pupil.

Miss Willie T. Summers, one of our talented young musicians, after four years of hard work under her gifted teacher Miss Nellie Buckner, applied for admission to the College of Music in Cincinnati and went down for examination last week, accompanied by Miss Buckner. At the close of the test when the examination fee was asked Miss Summers was told there was no fee, that it had been a pleasure to make the examination and that the college had never received a pupil who showed better training, or one who gave promise of higher things.

Burglar Caught.

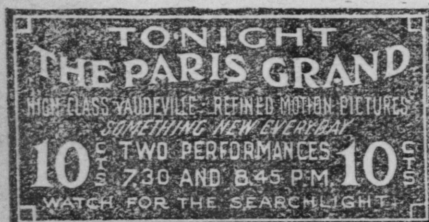

John Gatewood, the colored dry goods merchant on Main street between Seventh and Eighth streets, caught a burglar in his place of business shortly after midnight Saturday. Gatewood and his wife have living apartments over the store-room. His wife heard the noise below and awoke her husband who went down to investigate. The burglar hearing someone coming ran to the rear of the place and dropped about twenty feet out of a window. Instead of making his escape he found himself a prisoner behind a retaining wall. Officer Burke was soon found and the prisoner arrested and taken to jail. He was a negro and gave the name of Hugh Rogers, of Cincinnati, but said he had come to Paris from Lexington. He had several bundles of goods wrapped up to make away with. He gained admittance from the back door, and is no doubt a professional.
